Thanks to bank for providing standing desks

To the editor:

I would like to thank the Charitable Trust of the Institution for Savings (IFS) for funding 17 high-quality, hard wood standing desks for the students of Salisbury Elementary School (SES). SES had purchased three standing desks last year and we knew that they would be a very helpful resource in every classroom. The very generous donation from the

IFS allowed every classroom from first to sixth grade to have a standing desk.

Standing desks provide an opportunity for students to change position to work within the classroom and quietly support a variety of learning styles. The standing desks have been enthusiastically embraced by students and staff alike.

I would also like to thank the Salisbury PTA for submitting

the application to the IFS so that we could obtain the standing desks. The SES PTA tirelessly supports the students of Salisbury in large and small ways on a daily basis.

Lastly, thank you to the SES Student Council for assembling the standing desks and delivering them to the classrooms.
